DR. ROGELIO VELEZ **ANESTHESIOLOGIST**

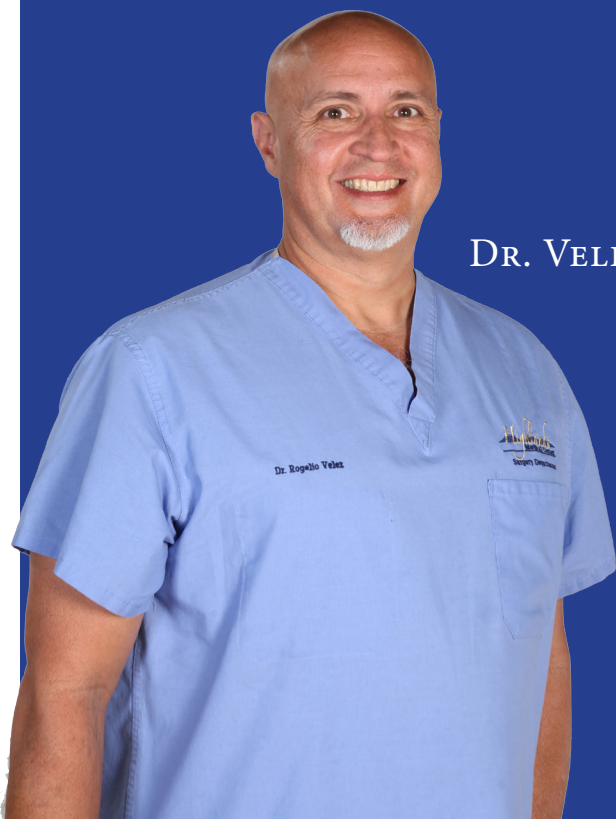

Dr. Rogelio Velez, Highland's Medical Center anesthesiologist, has a passion for helping patients restore function and quality of life. He specializes in anesthetic procedures like fluoroscopy guided epidurals, facet injections, ultrasound guided regional blocks and caudal blocks which can lead to functional improvement and relieve lower back pain.

Dr. Velez was thoroughly trained by the Alabama Board of Medicine and has more than 20 years of experience in anesthesiology. After completing medical school at the University of Central del Caribe in Puerto Rico, Dr. Velez studied internal medicine during a two-year internship at the prestigious Yale Waterbury Primary Care Program in Waterbury, Connecticut. Following his internship, Dr. Velez completed his anesthesia residency at Jackson Memorial Hospital at the University of Miami.

When Dr. Velez receives new patients he reviews each MRI and provides patients with an injection efficiency evaluation. Following each patient's procedure, copies of the anesthesia report will be sent to the referring physician for review and patient follow-up.

Besides his wealth of knowledge and clinical expertise, Dr. Velez is an ideal choice for patients because there is no referral necessary for treatment and he is in close proximity to all patients in the Jackson County Area. Most importantly, though, Dr. Velez offers patients fast relief while they wait to see a specialist.

Dr. Velez is located at 380 Woods Cove Road, Scottsboro. For more information, contact 256-218-3240.
